TARUN DAYMA

tarundayma54@gmail.com | 7374802234 | www.linkedin.com/in/tarundayma | github.com/tarunx47

EDUCATION

Rajasthan University Aug 2025 – May 2028
Bachelor's of Computer Applications in Computer Science Jaipur , Rajasthan

Govt. Senior Secondary School 2022 – 2023
Biology, Physics, Chemistry Jaipur, Rajasthan

SKILLS SUMMARY

- **Languages:** Java(Proficient), C(Good), C++
- **Frameworks:** Spring Boot(Decent)
- **Tools/Platforms:** intelliJ , VS code, MySQL, GitHub, Docker, LLMs
- **Soft Skills:** Problem Solving, Adaptability, Team Player

CERTIFICATIONS

- Certification of Java workshop

PROJECTS

DetectX github.com/tarunx47/DetectX | Python · Scikit-learn · Random Forest · FastAPI · React · TypeScript

- Developed a machine-learning fraud detection system using a large synthetic financial transactions dataset.
- Trained and evaluated a Random Forest classification pipeline to identify potentially fraudulent transactions.
- Built a FastAPI backend with prediction and health-check endpoints to connect the ML model to the application frontend.
- Evaluated model performance using precision, recall, F1-score, and ROC-AUC.

HeatTrip github.com/tarunx47/ | Java, Spring boot

- Developed a travel-planning application focused on helping users make decisions based on heat and environmental conditions.
- Integrated weather and environmental data to support heat-aware route analysis and itinerary planning.
- Designed route and shade analysis features with thermal scoring to help identify more comfortable travel options.
- Worked on backend API integration and itinerary optimization.

Story Forge github.com/tarunx47/adaptive-novel-reader | TypeScript

- Built a novel discovery platform that searches for stories by title, author, or genre using SerpApi.
- Integrated Bright Data web scraping to retrieve novel content from user-provided links.
- Developed a dark-themed interface combining novel discovery, content extraction, and AI-assisted reading features.
- Integrated Google Gemini to generate AI-powered summaries of retrieved content.

TECHNICAL SKILLS

Programming Languages: Java, C, C++, python
Backend: JDBC, JSON, SQL, MySQL
Developer Tools: Git, GitHub, IntelliJ IDEA, Docker, Postman
CS Core: DSA , OOPs, OS, DBMS

ACHIEVEMENTS

- Solved 110+ LeetCode problems
- Participated in hackathons 3 times
- Open Source Contributor
